TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

(L. S.)

To the inhabitants of the Town of Greenland in the County of Rockingham, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Greenland on Tuesday, the 8th day of March next, at ten of the clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for same.

3. To choose a Delegate to the Constitutional Convention.

4. To see what sum the town will raise and appropriate for the Weeks Public Library.

5. To see if the Town will vote to raise and appropriate $53.48 for the issuance of and distribution of printed matter calling attention to the resources and advantages of the town, in cooperation with other towns in the Seacoast Regional Development Association.

6. To see if the Town will vote to raise and appropriate the sum of $113.00 to pay the hospital and doctor bills for the accidents which Alfred Van Etten and Stephen Evans had at the gravel pit.

7. To see if the town will vote to accept State Aid for construction of Class V roads, known as Bay Side road and raise and appropriate $85.40 for said purpose.

8. To see what sum of money the town will vote to raise and appropriate for the repairs of highways and bridges.

9. To see if the Town will vote to raise and appropriate the sum of $75.00 for the park.

10. To see if the Town will raise and appropriate the sum of $30.00 for the care of cemeteries.

11. To see if the Town will vote to raise and appropriate the sum of $25.00 for planting shade trees.

12. To see if the Voters of the Town will authorize the Selectmen to borrow money on short term notes in anticipation of taxes.

13. To see if the Town will vote to sell the gravel pit located in Harry Downs' pasture.

14. To see what action the Town will take in regard to realestate taken over by the town for non-payment of taxes.

15. To see what action the Voters of the Town will take regarding selling or leasing the town hall.

16. To see if the Town will vote to discontinue it's part of Stratham Lane provided Stratham does likewise.

17. To see if the Town will vote to extend the discount rate as follows: If a prolonged session of the State Legislature prevents the collector receiving his levy at least 14 days before the earlier and larger discount rate the date of such discount shall be extended to 14 days after he receives his warrant.

18. To see what action the Voters of the Town will take on the following resolution:

Resolved that it being deemed for the best interests of the property owners of the town of Greenland, we do hereby prohibit the use of any building, vacant or otherwise, any lot of land, occupied or otherwise, any fields or land frontage whatsoever along the highways of the Town of Greenland, for the purpose of automobile storage lots, junk yards or any similar storage use.

It being provided however, that such use may be made of land and buildings situated a distance of fifteen hundred (1500') feet or more from any public highway within the limits of the Town of Greenland.

IT IS FURTHER RESOLVED THAT a permit shall be obtained from the Greenland Planning Board, signed by a majority of its members before establishing a business of any kind, or erecting a building for the purpose of establishing a business of any kind within a radius of one mile from the Town center. Said Town center being described as the intersection of the Post Road, so called, and the South Side Road or Portsmouth Avenue, so called.

It being provided however, that this resolution shall have no effect on any business now established.

19. To transact any other business that may legally come before said meeting.

Given under our hands and seals this 21st day of February in the Year of our Lord nineteen hundred and thirty eight.

THOMAS J. BRACKETT,
ARTHUR J. SEWALL,
CLARENCE E. GOWEN,
Selectmen of the town of Greenland.

REPORT OF LIBRARIAN

The forty-first annual report of the Weeks Public Library is herewith submitted, giving the statistics for the year 1937-1938.

The library has been open twice every week except on Christmas day and on the evening of New Years when there was a very severe snow storm. High School pupils have made more use than usual of what we have to offer them, but our funds do not permit us to acquire books which would be used only for research so that often we cannot help them. Non-fiction is expensive and we could not have as many of the higher priced books as we do except that some stories of less literary merit may be had after a year or two in inexpensive reprints. In this way our small book fund is stretched to the limit.

Forty-five per cent of those who took out cards for the first time this year were children. When they can write their names with ink, usually when they are in the second grade at school, they are entitled to a card.

Accession number of volumes	9,239
Added by purchase	123
Added by gift of individuals	3
Added by gift of State of New Hampshire	8
Added by gift of authors and publishers	5
Worn out volumes discarded	16
Number of volumes in storage	18
Magazines subscribed for	4
Magazines regularly presented	13
Circulation for the year	5,947
Fiction	5,406

Non-fiction	541
Juvenile	1,288
Average daily circulation	57
Largest daily circulation	79
Smallest daily circulation	27

Thanks are due to Mrs. Frank Moody for the gift of a large book case which is useful for the preservation of some of our more valuable and less used sets. She also gave a set of shelves which replaced some that were smaller and less well finished.

Respectfully submitted,

LILLIAN A. ODELL,

Librarian

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Greenland, New Hampshire:

It gives me pleasure to submit to you my annual report as Superintendent of Schools, the ninth in the series.

In May, near the close of the year 1936-1937, the usual achievement examinations were given, to determine school progress and to provide several other checks on various phases of school work. I am glad to report that, in general the results showed satisfactory conditions. This statement means more when qualified by another one, to the effect that we are not smugly satisfied with every phase of our school life and work. As teachers and school officers we know that every pupil differs from every other one in ability, physical make up, disposition and other phases of personality, and on this knowledge we proceed each year, trying as best we may to modify our methods and plan our time so that each pupil will get all he is able to get from his work. That is the ideal for which we strive.

As to the daily work of the school—the activities of pupils and teachers together—special effort has been made in recent years to improve the quality of both oral and silent reading and the quality of all kinds of oral expression, both formal and informal. The results of this effort are beginning to show. A consistent plan for handwriting is carried from grade to grade throughout the course. Here, again, the results are creditable. It is the purpose so to teach the younger and intermediate grades in all subjects, fundamental and otherwise, that the pupils who enter the seventh and eighth grades will be able to do at

least the essential parts of their work with as good results as are obtained elsewhere and to enter the ninth grade in Portsmouth with no handicap. Recent reports from the Portsmouth Junior High School and High School say that Greenland pupils are successful with their work there.

We have very conscientious teachers, studying constantly to improve their work, keen for more knowledge of the art of teaching and hoping constantly to achieve better results. It has been possible this winter to arrange an extension course of lectures by members of the faculty of Boston University, for teachers in the vicinity of Exeter. This course carries postgraduate credit. Two of the Greenland teachers are taking the course. Another attended the summer school for teachers at the Keene Normal School last July and finished her work with high marks. Still another has for several years pursued a course of reading and study by herself, at time permitted, and with excellent results. I rarely find that the teachers' weekly plan books have been neglected in the least, and the utmost attention is constantly given to the individual needs of their pupils. I take pleasure in reporting the day by day industry and the self effacing, cooperative interest in daily routine, which our teachers have. One item in this good report is that when weaknesses are discovered, by self analysis or otherwise, as of course they must be discovered in all human beings, the study and correction of these weaknesses are, for all of our teachers, matters of first moment. I should like to commend, especially, the work which Miss Thaxter does in cooking and sewing. For a good many years now she has quietly be efficiently and economically furnished this valuable training in ways suitable to the community and to the home of her pupils.

Perhaps the spirit and atmosphere of a school have much to do with the quality of the work done there; certainly a school in bad spirit is an unhappy place. We can be sure, I think, that character as well as work is influenced by general spirit. The quality of citizenship shown by the pupils of the Greenland Schools has improved in recent years. The school is a happy school and the kind of citizenship displayed by pupils when out of school is commendable. Modern times are hopefully pointing the way to a better use of leisure time by young people who have finished school. It is hoped that Greenland may some time have such widely varied recreational and leisure time interests as will not only prevent infractions of the law but will so enrich living that the good school citizen will naturally become a valuable young member of society and grow into a satisfactory and worthy adult citizenship.

Mrs. Sheehy's report as School Nurse on following pages tells of the results of her work last year and is another reminder that our pupils need constant medical and dental attention. Mrs. Sheehy sees the school every week, sometimes oftener than that, and, as an efficient nurse, she not only discovers pupils' physical defects but cooperates with parents and teachers in correcting them. I commend her work to your kindliest interest.

For the most part our school building is ideal in its plan of construction, with an abundance of heat and light, and the teachers arange and maintain their class rooms very attractively. The building is also an ideal place for the community gatherings that are held there and this use should continue. However, with the great wear and tear from its use by the general public, the problem of constantly having a perfectly clean building as all school buildings should be, is a large one. Your contemplated

plan of some time having your own water supply and an oil fired, instead of a coal fired, boiler will help much in this matter.

I hope that the statistical tables hereto appended will be noted and studied. They present cold facts unembellished by words and are especially useful to those who would know the exact cost of education in Greenland and comparative costs in districts associated with her in Union No. 16.

The teachers, I am sure, know, as I do, that you, individually and as a Board, are very much interested in our school and our work of training boys and girls to be good citizens, and we thank you for it.

Respectfully submitted,
CLIFTON A. TOWLE,
Superintendent of Supervisory
Union No. 16.
